

STONE LOOK

Stony20

MARAZZI

Stony20

Stony20 is a 20 mm thick porcelain stoneware collection, designed to meet the needs of contemporary outdoor spaces. Available in the 60x60 format, Stony20 combines the refined aesthetics of limestone with high technical performance, ensuring strength, reliability and seamless stylistic continuity between indoor and outdoor areas.

Thanks to its extra thickness, Stony20 is suitable for multiple installation solutions: from dry installation on grass, sand or gravel, to installation on driveways, offering maximum design versatility in both residential and commercial settings. The surface is designed to provide stability and safety in outdoor conditions, while maintaining a natural and elegant look.

Perfect for terraces, gardens, walkways and high-traffic outdoor areas, Stony20 is the ideal choice for those seeking an outdoor porcelain stoneware paving solution that combines design, functionality and long-lasting durability, enhancing every project with a modern and timeless style.

Legenda

Destinazioni d'uso

D
 Tiles suitable only for residential bathrooms and bedrooms; any type of abrasion must be avoided.

E
 Tiles suitable for any room of a house except for entrance areas and kitchens. Low stress abrasive wear.

F
 Tiles suitable for any room of a house without direct access from the outside or access not protected by doormats. Average stress abrasive wear.

G
 Materials suitable for rooms subject to medium-heavy abrasion, such as detached houses and light-traffic commercial buildings.

H
 Materials suitable for situations of relatively hard abrasion in environments without protection against scratching, both public and private.

Variazioni cromatiche

V0
 Monochromatic - V0: tiles of the same shade are very uniform, in just one colour

V1
 Uniform appearance - V1: uniform colour with only minimal differences between tiles in the same production run

V2
 Slight variation - V2: clearly distinguishable differences in texture and pattern within the same production run

V3
 Moderate variation - V3: significant variation in texture, pattern and colour from tile to tile within the same production run. The colour range should be viewed before selecting the material

V4
 Substantial/random variation - V4: random differences from tile to tile. One tile may have totally different texture and colour from another. The colour range should be viewed before selecting the material
